

COMPLICATIONS ARISE FROM RAID

Complications arose yesterday out of the raid made by Constable Bailey of Lowell on Tuesday night of a poker game which he discovered being conducted in a room connected with the White House saloon. Yesterday the prisoners claimed that they were within the limits of the law, that they were an incorporated club and that before starting the game they had been informed by legal advice in consultation with the Bisbee attorney before starting the game that they could play without molestation.

Yesterday they declared that they would bring action against Constable Bailey and his bondsmen for the \$32 seized and for false arrest.

Jack Smith, who it is alleged was conducting the game was hauled before Justice Murphy yesterday and was represented by Attorney Joseph set for next Tuesday at one o'clock, to appear on Constable Bailey for \$32. Smith refused to turn over the cash which had gone from his possession and was held by the court as evidence in the case.

The peace officer declares he has a strong case and does not fear the outcome and the other side promises against the Constable and his bondsmen.

LEGISLATURE OF WASHINGTON TO PROBE

OLYMPIA, Wn., Aug. 11.—The eleventh legislature, called in special session to consider charges of malfeasance in office against State Insurance Commissioner John H. Schively and which adjourned on July 2, that impeachment charges against Schively might be prepared during the recess, remembered this afternoon Governor Hay is preparing a special message recommending an investigation of an alleged corrupt political society in Spokane known as Order of Pantalo, to which three Spokane county Superior Judges are said to belong. The new message of Governor Hay, who has hitherto striven to confine the session to the consideration of the Schively case, is expected to open the gates for bills of all kinds.

CONSPICUOUS JURIST DIES.
SAN FRANCISCO, Aug. 10.—Judge William T. Wallace, conspicuous in legal and judicial circles for more than half a century, died today at his home in this city. He was partner and son-in-law of Peter H. Burnett, first governor of California under American rule. He was 81 years of age.

SCHOOLS ARE IN READINESS TO OPEN

Although the entire personnel of the Bisbee staff of teachers for the coming school year has not been made up, and until the list shall be completed, which is expected to be within a week, will not be given out nevertheless the schools are all ready in other respects for the opening which will occur on September 6 and 7.

Professor Philbrook said yesterday that he did not expect any overcrowding, and felt no doubt of the ability of the schools to care for all applicants, and that, too, without any short sessions for any of the scholars, such as the half day sessions which are necessary in communities where overcrowded conditions exist. In the course of his conversation Professor Philbrook told of some of the improvements which have been made in the various schools during the past summer, and of some of the plans for the coming year.

During the summer steps have been taken to make all the school buildings perfect from the point of view of sanitary conditions, and a number of improvements were directed to this end, as well as to insuring greater comfort to the scholars and added facility in teaching and instruction.

Buildings Are Renovated.
At the Lowell school there was a general cleaning up. All the desks and all the woodwork in the building have been repainted, and the building is spick and span, clean, neat and bright as a new pin.

At the Lincoln school more work has been done than at Lowell. Here the building has been completely renovated and plastered. In the past the rooms of this school house were celled in, but this ceiling has been done away with and the walls are now plastered and tinted. A fine maple flooring has replaced the old soft pine floors, the desks have been repainted and new and sanitary toilet arrangements have taken the place of the old, which are crude and antiquated.

Central School Changes.
At the Central school building the work of cleaning up also went on, although here no painting, varnishing or tinting was found necessary. The changes made here were mostly for convenience sake, and with a desire of obtaining better educational results for the building at close of the school year was in excellent condition.

The manual training department has been removed from the room which formerly occupied the room which was last year used as a store room, and the room vacated by the manual training department has been fitted up as a commercial room, one of the important features of the school work, where evening as well as day classes will be held. This room will also be used by the science classes of the high school.

Will Try Innovation.
An innovation which is to be introduced this year is a cooking class for the larger Mexican girls. Age and not school standing will be qualification for entry into this class, and all girls of suitable age, who can speak enough English to get along, even if that English be very little and only enough for them to understand, will be put into this class.

Cleanliness in the kitchen and dining room, especially in the kitchen, and in the care of cooking utensils will be the first elements to be inculcated by the instruction which the girls will receive.

This class bids fair to cut an important figure in the work which is to be done in the coming school year, and will warrant all attention given to it.

MARIN REINFORCED IN MOROCCO.

MELILLA, Morocco, Aug. 11.—General Marina, Spanish commander in Morocco, now has a total of 38,000 men at his disposal and is completing his preparation for concerted movement against Mount Gurgula, the center of the Moorish position. The Spaniards have been bombarding Mount Gurgula daily.

A Moorish vessel with contraband of war aboard has been captured near Alhucenas.

BALLOON LOCATES TWO NEW MOORISH CAMPS.

MELILLA, Aug. 10.—A captive balloon in the Spanish lines today discovered two new camps of Moors which were promptly shelled by the Spanish artillery.

The Moors were driven out, carrying their dead and wounded.

ARIZONA MINERS GET FIRST MONEY

At the Butte Miners' union picnic Monday, by the narrow margin of one thirty-second of an inch, Montana's great team of drivers, McNichols and Ross, lost first prize to the Globe team of Page and Pickens of Globe. The skill of the Globe team took chief honors at the Butte meet, and incidentally lost for Butte the additional \$500 offered by John D. Ryan, provided a Montana team won.

The scores made by the teams getting the first three places were:

Page and Pickens, 43 28-32 inches.
McNichols and Ross, 43 27-32 inches.
McLain and Carter, 40 5-8 inches.

Page and Pickens were the third team to mount the rock, one of the hardest blocks ever taken from the Welch quarry, and declared by many miners to be as hard as the famous Gunnison granite of Colorado. The fact that Pickens and McNichols won the championship at Spokane last year by drilling 56 inches, added great interest in today's contest, both champions being entered with different partners.

The grandstand was occupied, while every seat on the bleachers and in several thousand more deeply interested, surrounded the granite block. More than 10,000 persons saw the drilling, and interest never flagged for a moment.

The appearance of the Arizona men was the signal for the first betting of today only \$25 to \$10 being offered. Page bet liberally on himself. Both Pickens and Page are magnificent specimens of physical development, and it was generally conceded before the drilling began, that if they did not win, they, at least, would be in the money. Pickens swung the hammer first for his team and the steel immediately began biting into the rock, seven-eighths inch steel being specified. A couple of bad changes made it seem possible that the Arizona men would not make their good record, but the weight they put back of their blows counted for a great deal.

A number of the older contestants were fast and nifty hammer men, but lacked the power that Pickens and Page were able to put into their blows. Page was the faster in striking and as the long drills came into use, he improved greatly in his changes. The Arizona team, however, did not take advantage of the double strokes in the changes and, in fact, gave the impression of carelessness in that particular part of the contest. The announcement that they bored 43 28 inches showed that the supposition that they would be in the money, if not the victors, was well founded.

The Arizona team left Butte for Cobalt, Canada, where it will participate in the \$1,000 contest there.

Ice cream social on Y. M. C. A. roof this evening by ladies of M. E. church. Good time assured.

**WANT A MONOPOLY
ON A CIRCUS SHOW**

SOME FACTS WHICH SHOW THE RINGLING BROS. METHODS IN THE COUTHWEST.

That there is at least an attempt at monopoly in the circus line seems to be now quite evident. Denver, Colorado, is having the same experience that Bisbee and Douglas have had.

In both Douglas and Bisbee the putting up of the posters for the Ringling Bros. show some time ago was followed immediately by posters asking people to wait for Ringling brothers show, implying that Ringling brothers show would be along right soon, though they did not say so. Subsequent events have shown that the Ringling show will not be here until fall, probably not before October at least.

The city council of Denver took vertising action when the advertising trick was played there. They made Ringling brothers take down their posters, and when the Ringling brothers would be along right soon, though they did not say so. Subsequent events have shown that the Ringling show will not be here until fall, probably not before October at least.

The show interfered with in Denver by the Ringling brothers, the Wallace-Hagenbeck aggregation, this seems to show that the animus of Ringling is not so much to destroy any competitor as to complete a monopoly of the show business in the district line for themselves.

The same tactics in El Paso, in fact the Ringlings seem to have followed the same tactics in every city in the southwest, if not further. It remains to be seen what the people who attend circuses will say to that sort of work when Ringling brothers come along.

**ARIZONA RANKS HIGH
IN MOUNTAIN'S HEIGHT**

At least one item in the following table, compiled by N. H. Darton of the United States Geological survey, will be of interest. Everyone wants to know—usually he thinks he does know—what is the highest point in his own state. Arizona ranks tenth in the list of 50 states and territories, including the District of Columbia, as follows:

Alaska, Mt. McKinley	20,300
California, Mt. Whitney	14,501
Colorado, Mt. Elbert	14,436
Washington, Mt. Rainier	14,363
Wyoming, Mt. Gannett	13,785
Utah, Mt. Emmons	13,428
Nevada, Wheeler Peak	13,068
New Mexico, peak two miles north of Truchas	12,006
Montana, Granite Peak	12,834
Arizona, San Francisco Peak	12,611
Idaho, Hyndman Peak	12,078
Oregon, Mt. Hood	11,235
South Dakota, Harney Peak	7,240

CANANEA BUDGET OF TIMELY NEWS

(Special to Review.)

CANANEA, Aug. 11.—Joe Gibson, the man who was killed by lightning on the Arizapo road last week, was buried in the cemetery here a few days ago without anyone being able to locate any friends or relatives of the deceased. Gibson worked for the Cananea, Yaqui River and Pacific railroad in the lower part of this state for a time, and has also been employed at different points in Arizona. Charles Wiswall, local consular agent, is making an earnest effort to find out where his relatives live, and any aid that can be given him will be appreciated. Southwestern papers, by taking note of the case, may also be an instrument in acquainting his connections with the news of his death.

After a temporary discharge from the hospital, Jack Horn has suffered a relapse, and has returned to the doctor's care. He will not be out again for three weeks, if at that early date.

Mrs. W. H. Gamble, who went to Los Angeles two weeks ago to enter the California hospital for an operation, has been successfully treated, and is at Ocean Park for recuperation. She will return to Cananea early in September.

J. F. Carmichael is packing up his last grade of worldly possessions preparatory for that long delayed Seattle trip, which he has been planning ever since a certain young lady moved from Cananea to that resourceful city. He will leave the 15th inst., and has no idea when or how he will return.

Chas. F. Shelby has a new distance destroying joy wagon.

Ralph O'Neill has been located on a ranch near Nogales. Ralph ventured out on his own resources about ten days ago without going through the formality of notifying the folks at home. He was traced in the direction of Tucson, through the railway ticket offices, but didn't follow out the way the ticket pointed. While his parents were worried considerably over his sudden departure, the fact that he is remarkably self reliant for one of his years comforted them with the assurance that he would take care of himself. He is the son of R. L. O'Neill, of the Banco Mercantil, and well known to everyone in Cananea.

Mr. and Mrs. William Kearney have gone to their ranch near Phoenix to spend a couple of months.

Erwin Claus has recovered from his recent illness and came out of the hospital today.

M. J. Noonan is on the sick list.
C. L. McReynolds, the Bisbee attorney, is a business visitor here.

Tickets for the excursion to Nogales next Sunday are being rapidly sold, and the necessary one hundred is practically assured. Besides the privilege of visiting the Smelter City two good ball games are in store for all who care to make the trip. The local time is going over for a big chunk of revenge, and they will get it, too. Despite the statement in yesterday's Los Angeles papers that Bill Goodman has been sold to Pittsburgh for immediate delivery, he will be guarding the second base for Cananea next Saturday and Sunday, and batting in his regular order. The local management received a telegram from him last night stating that he was on his way, and, barring accidents, he will certainly roll in on tomorrow's train. Dugan has just received a shipment of "pazaza," which will be carefully rubbed on the pitchers' arms and sprinkled profusely over the bats. It's guaranteed to bring results. So all ye rooters, dust up your horns and prepare for the big jollification that two victories will demand.

PROBATE NOTICE.

In the Probate Court of the County of Cochise, Territory of Arizona. In the matter of the guardianship of the estate of Nathaly and Robert Larson, minors. Notice of settlement of account.

Notice is hereby given that A. T. Sowle, the guardian of the estates of Nathaly and Robert Larson, minors, has rendered and presented for settlement, and filed in said court, his second annual account of his guardianship proceedings, and that Monday, the 16th day of August, 1909, at 10 o'clock a. m., at the court room of said court at the court house in Tombstone, in said Cochise county, has been duly appointed by the judge of said court for the settlement of said account, at which time and place any person interested in said estate may appear and file his exceptions in writing to the said account and contest the same.

J. E. JAMES, Clerk.

Dated August 2nd, 1909.

PROBATE NOTICE.

In the Probate Court of Cochise County, Territory of Arizona. In the matter of the Estate of John H. Mathias, deceased. Notice of settlement of final account and distribution of estate.

Notice is hereby given that L. C. Shattuck and G. J. McCabe, as executors of the last will and testament of John H. Mathias, deceased, have rendered and presented for settlement, and filed in said court their final account of the administration of the said estate, and a petition for the distribution of the same, and that Saturday, the 14th day of August, 1909, at 10 o'clock a. m., at the court room of said court at the court house in Tombstone, in Cochise county, has been duly appointed by said court, for the settlement of said account, and the distribution of the same, and that any person interested in said estate may appear and file his exceptions, in writing, to the said final account, and contest the same, and show cause, if any, why a final distribution of said estate should not be ordered.

Dated this 2nd day of August, 1909, at Tombstone, Arizona.

J. E. JAMES, Clerk of the Probate Court of Cochise County, Arizona.

Nothing Succeeds Like Success

Success that carries with it the esteem of our customers and competitors as well, can be built upon correct business principles. In the present competitive warfare, honorable leadership must be and is recognized by all.

Coupled with the above, our strength has been augmented by our close application to the varied needs of our many customers. We are bending every energy to supply our customers with the best to be had in Arizona.

How well our efforts are appreciated by our customers the Warren district over, is evidenced by our rapidly increasing trade.

Mr. E. F. Everhardy having sold his interest in the company, Mr. John True has succeeded him as general manager.
